PROFESSIONAL SUMMARY

Software Engineering graduate with a CGPA of 3.75/4.00 and practical experience in full-stack web development. Skilled in developing web applications using React.js, Python, Django, Django REST Framework, and PostgreSQL. Knowledgeable in REST API development, database design, authentication, and responsive web applications. Completed a four-month hands-on internship at Harari Innovation and Technology Center. Strong problem-solving and analytical skills with a willingness to learn new technologies.

EDUCATION

Jigjiga University
B.Sc. in Software Engineering | 2022–2026
CGPA: 3.75/4.00 • Exit Exam: 70%

INTERNSHIP EXPERIENCE

Software Engineering Intern
Harari Innovation and Technology Center | 4 Months

- Gained hands-on experience in software development.
- Participated in software development activities and practical technical tasks.
- Applied programming and problem-solving skills in a professional environment.

ACADEMIC PROJECT

Land Record Management System (LRMS)

- Developed a web-based system for managing and organizing land records.
- Implemented land registration and record-searching functionality.
- Worked on frontend development, backend APIs, and database integration.
- Applied authentication and role-based access control.

Technologies: React.js, CSS, Python, Django, Django REST Framework, PostgreSQL.

KEY STRENGTHS

Dedicated and motivated software engineering graduate with strong technical skills, a problem-solving mindset, and commitment to continuous learning.
